

# Theatre Major Requirements

All majors are required to complete the following 4 required courses.

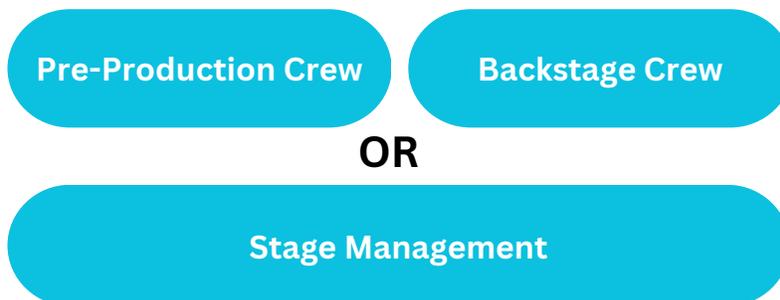

The praxis (aka studio) courses must each be in a different field. Praxis offerings include: **acting, design, directing, dramaturgy, playwriting, and stage and production management.**

Majors must then complete an additional 8 courses between Drama/Theatre/Performance Studies courses (lectures/seminars) and Praxis (studio) credits, with a maximum of 5 courses in either field. 3 courses must be in the field of the senior thesis.

Finally, majors are required to complete a pre-production crew assignment and a backstage crew assignment. Designing for a thesis festival production may be counted as one crew credit. Majors who stage manage a production are required to complete only one production assignment.

The old major requirements will automatically fill this more efficient distribution of requirements.
